MySielaff Web and App
Basic

MADE IN GERMANY

With MySielaff, you have a powerful platform at your disposal to centrally monitor, analyze, and manage your reverse vending systems.

Features - MySielaff Web

- Central overview: Dashboard showing the status and operating conditions of all systems
- Monitoring: Real-time display of faults, alarms, and offline statuses
- Automated reporting: Regular email reports on usage data
- Key figures at a glance: Visualization of system availability and return rates
- User management: Role-based access rights for clear structures and maximum security

Features - MySielaff App

- Real-time notifications: Push alerts for faults, status changes, or full containers
- Quick overview: All system statuses displayed clearly and compactly
- Compact statistics: Mobile view of key figures, returns, and actions
- Intuitive operation: Simple menu navigation for fast access to information
- Seamless connectivity: Fully synchronized with MySielaff Web – all data always up to date

Technical changes and errors excepted.
All illustrations are exemplary and may include optional equipment.
