MADE IN GERMANY

Optional extension: Orientation and operating aids

- High-contrast display for improved visibility
- Acoustic signal tones for important processes, e.g. accepted containers, voucher printing, or rejections
- Tactile markings to identify the bottle infeed and voucher output
- Braille and pyramid markings to indicate important elements
- Bottle acceptance without display interaction: facilitates use for people with limited mobility
- Automatic receipt printing without interaction with the display
- Bright contrast strip and clearly highlighted infeed area for improved visibility

General Information

Reverse vending machines do not fall within the scope of the European Accessibility Act. Nevertheless, we have equipped our machines with various features that improve accessibility for all users and ensure user-friendly operation.

Technical changes and errors excepted.
All illustrations are exemplary and may include optional equipment.
