Made for Everyone

Take-back solutions that
are accessible to all

Take-back solutions that are accessible to all
Added value for every store, a benefit for everyone

For us, ease of use is not an extra – it is part of our responsibility.
With our solutions, we enable all people to use our take-back systems independently and effortlessly.

Whether individuals with limited mobility, visual impairments, or of shorter stature – our systems are designed to ensure maximum accessibility and ease of operation.

As a leading manufacturer of take-back systems, we develop solutions that allow all people to access them intuitively and effortlessly.

What ease of use means to us:
- Simplified access to all operating elements
- Intuitive guidance through visual, acoustic, and tactile support
- Safe operation without unnecessary interactions
- Greater independence for all user groups

Our "eaSi" models and equipment options set new standards in ergonomics, ease of operationt, and user-friendliness.

The eaSi Models:
Reduced Overall Height for even greater accessibility

SiCompact ECO eaSi
The SiCompact ECO eaSi expands the SiCompact series with a reduced-height version, offering particularly good accessibility for everyone.

Ergonomics & Operating Heights:

Control panel height:	1.213 mm
Insertion height:	1.151 mm
Bag hook height:	1.030 mm
Receipt output height:	959 mm

Features
- Improved accessibility thanks to lower insertion height
- High-contrast display with acoustic signals during key operations
- Tactile, Braille, and pyramid markings for easier operation
- Automatic receipt printing and bottle acceptance without display interaction
- Improved visibility thanks to a bright contrast strip and clearly highlighted insertion area
- Front-mounted hook for shopping bags or personal items
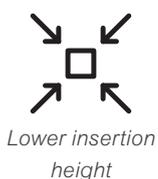

SiVario 2020 eaSi
The SiVario 2020 eaSi expands the SiVario series with a reduced-height version, offering particularly good accessibility for everyone.

Ergonomics & Operating Heights:

Control panel height:	1.185 mm
Insertion height:	1.147 mm
Bag hook height:	1.027 mm
Receipt output height:	879 mm

Features
- Improved accessibility thanks to lower insertion height
- High-contrast display with acoustic signals during key operations
- Tactile, Braille, and pyramid markings for easier operation
- Automatic receipt printing and bottle acceptance without display interaction
- Improved visibility thanks to a bright contrast strip and clearly highlighted insertion area
- Front-mounted hook for shopping bags or personal items

Available for Every System
Modular options for easier operation

### Flexible. Modular. Tailored to your store environment.

Not only our eaSi models, but also many of our standard systems can be individually equipped with accessibility features.

Whether new installation or retrofit: we support our customers in making their take-back systems inclusive, easy to use, and future-proof.

SiVario 2020 - Additional options:

Orientation and Operating Aids

- High-contrast display with acoustic signals during key operations
- Easier operation through tactile, Braille, and pyramid markings
- Automatic receipt printing and bottle acceptance without display interaction
- Improved visibility thanks to a bright contrast strip and clearly highlighted insertion area

SiCompact Series - Additional options:

Orientation and Operating Aids

- High-contrast display with acoustic signals during key operations
- Easier operation through tactile, Braille, and pyramid markings
- Automatic receipt printing and bottle acceptance without display interaction
- Improved visibility thanks to a bright contrast strip and clearly highlighted insertion area
