TI: 0224
Vending machine
type(s): SÜ; SN: FS;
GF; FK;

SiVend series software

The new SiVend series software offers new functions and optimises previous features. Here are just a few of the latest highlights.

GF

Improvement of the product output process for the GF X-Series.

Credit system

Communication between the cashless systems and the vending machine has been improved.
Statistical logging of mixed vends (cash and cashless) has been improved.
Processing of price lists with the respective credit system has been optimised.
Compulsory vend is cancelled if an empty product is selected.
Change is paid out after the vend if the vending machine is set to "compulsory vend".

Download

The latest software version is available from the [Download centre](#) on our homepage.
