

TECHNICAL INFORMATION

Date: 31.12.2025
TI: 2026
Vending machine type(s): See list below

New spare parts logistics: refrigeration units with refrigerant

We are changing the supply of spare parts for our refrigeration units with R134a refrigerant to optimise our service for your vending machines and at the same time meet the current challenges.

Affected vending machine types

- FS/SÜ 1500, FS/SÜ 2020, SN 48, FK 158, FK 170, FK 185, FK 230, GF 75, GF 99, Robimat X Series (XM, XL)

Consolidation of spare parts logistics

- Consolidation of spare parts for R134a refrigeration units scheduled for Q1 2026.

Reasons for the switch

- Discontinuation of small compressor sizes by our supplier.
- Simplification of SP stocks to optimise spare parts supply.

Spare parts solutions

- The discontinued refrigeration units can be replaced by the following R134a refrigeration units. These are fully compatible and ensure safe and reliable operation.
