

TECHNICAL INFORMATION

14. October 2019

TI2119

Machine type/s:

FS / SÜ / SN48 / GF 75 / GF 99 / GF XL / FK

New machine software

The features listed below apply to all machine types:

Localisation

The foreign language display texts have been improved.

Payment systems

The "Revalue" function has been extended. If requested, banknotes can only be accepted if they are to be used for crediting a cashless payment system.

Executive

There is now improved support for "Executive" protocol. The manipulating issue with Executive in a few foreign languages by pressing the return button has now been resolved.

Special functions for FS, SÜ and SN48

- Product illumination can be configured so that it automatically switches off when the door is opened.
- The menu for monitoring the cooled area has been activated on the LM 02 and 39 variants. This enables selection of the LM-shelves to be monitored.

TECHNICAL INFORMATION

FK current series software (from serial no. 90488670):

Machine	Control board	Software
FK	M32	FKMJ606.pat

FS / SÜ / SN current series software (from serial no. 90488661):

Machine	Control board	Software
FS / SÜ / SN/Softdrop	M32	FSMJ606.pat
FS /SÜ LM	M32	FSMJ606.lm

Robimat 75 / 99 current series software (from serial no. 90488646):

Machine	Control board	Software
Robimat 75 / 99	M32	FSMJ606.rob
Robimat 75 / 99 LM	M32	FSMJ606.rlm

Robimat XL / XM current series software (from serial no.: 90488665):

Machine	Control board	Software
Robimat XL / XM	M32	ROMJ606.pat

The Software-Updates detailed can be obtained free of charge from our Download-Centre (<https://www.sielaff.de/kunden-login/>).
