

TECHNICAL INFORMATION

Date: 18.12.2024
 TI: 3024
 Vending machine type(s): SN48

SN48 Typ 04

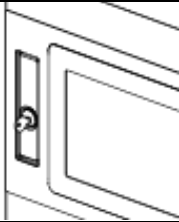

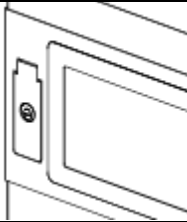

Standardising the design of the SiVend line will involve making a few changes:

Appearance

Previous	New
	

Locking lever protection

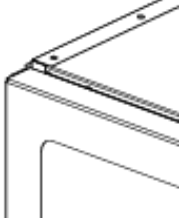

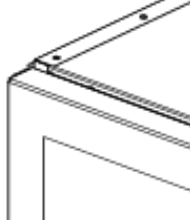

We have adapted the locking lever protection to match the rest of the SiVend line and widened it for better ergonomics.

Previous	New
	
Special locking lever protection	Locking lever protection

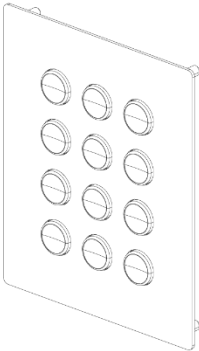

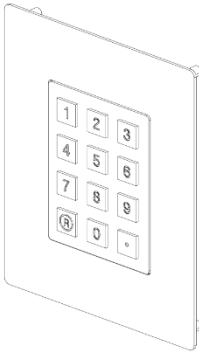

Glass panel

We have adapted the glass panel to match that of other SiVend vending machines.

Previous	New
	
Rounded corners	90° corners

Keypad

The metal keypad – previously only available as an optional extra – will be standard from now on. The plastic keypad will be discontinued.

Previous	New
	
Membrane keypad	Metal keypad

We constantly endeavour to improve the quality of our products. This change makes the vending machine’s design even more elegant without compromising its performance.

The new type 04 will be introduced on 2 January 2025.
