Machine type/s:

SiGusto NX/ ES+IN/ CVS 500/ CIS 500/ CVT-01/ CIT-01/ SiVend HG 15 TT/
HO Siamonie/ HO Siamonie Smart

Software changes for hot drinks machines

As we continually endeavour to improve our products and quality we have made the following software changes to our hot drinks machines.

SiGusto NX/ ES (from Software MSEKsc08.pat)/ **SiGusto NX/ IN** (from Software MSNKsc08.pat)/
CVS 500 (from Software MTEKvc08.pat)/ **CIS 500** (from Software MTIKvc08.pat)/
CVT-01 (from Software MVEKsc08.pat)/ **CIT-01** (from Software MVIKsc08.pat)

Cup dispense mechanism-carousel

- When "Timeout" occurs an error is shown for the cup-dispense mechanism. If "Timeout" occurs a second time (second attempt), the cup dispense mechanism will go out of service and the error must be deleted.

MDB-card system

- With the MDB-card system, following "Session Cancel" no "Revalue Limit Request" is displayed, as the card system has not yet acknowledged "Session End".
- "MDB-CashSale" can also be used for free vends and test vends with money.

Grounds container

- Offset for grounds container notification and fan-parameters can be adjusted in the installation menu and the "Check coffee dosage" notification is specified as a separate error.

Statistics

- In EVA-field E309 whenever statistics are downloaded, list 1 is implemented.
- Conversion of EVA_DTS transfers to files bigger than 64K

SiVend HG 15 TT (from Software M15Ks08.pat)

Dosage

- Configuration of the product motor wait time to 1.5 seconds maximum.

TECHNICAL INFORMATION

- Repeated delivery may lead to overdosing is possible.
- Activation of cold water and CO₂ water products using a run time in seconds.

Cleaning

- Compulsory cleaning can be programmed in the installation menu.

Product delivery unit

- Display message when there are no cups: Selection, display **“cup/mug”** is possible.
- A 4L entry for **“Latte Macchiato”** does not activate grinder repetition but an immediate stop.

Grounds container

- The request **“empty grounds container”** may appear even if the notification is already pending.
- 150 servings is the maximum value for the grounds container.
- For the **“Instant variant 7404”** selection the menu options are not shown for the grounds container counter in the installation menu.

Notifications

- The notification “Check coffee dosage” is now a separate error. The selection buttons are taken out of use in order to delete and reset errors.

HO Siamonie / HO Siamonie Smart (from Software MSAKsc09.pat)

Boiler

- When the boiler is filling, dispensed in ml, the display does not revert to 0 until the menu has been exited.

Statistics

- In EVA-field E309 whenever statistics are downloaded, list 1 is implemented.
- Conversion of EVA_DTS transfers to files bigger than 64K

Notifications

- The procedure for setting pre-rinse for **“Latte macchiato”** has been adjusted.

Product dispense

- Pot increments with special value H 02 **“Pot sale at one charge”** has been optimised.
- A 4L entry for **“Latte Macchiato”** does not permit grinder repetition. It comes to an immediate stop.

TECHNICAL INFORMATION
