

TECHNICAL INFORMATION

04. March 2019

TI0419

Machine type/s:

HO Siamonie / HO Siamonie Smart

New HO software

The following features are now available for the Siamonie and Siamonie Smart machines.

Localisation

The HMI (Touchscreen) display texts are now available in Czech.

Slideshow

The delay at the start of the slideshow has been reduced.

USB-interface

Exporting a design has been modified.

Siamonie Smart

The following features are now available for the Siamonie Smart.

Localisation

The HMI (Touchscreen) display texts are now available in Czech.

User prompts

The user prompt images on the HMI (Touchscreen) have been enhanced e.g. in the cleaning dialogue. In addition the products in the "Programming Mode" menu have been sorted to a standardised pattern. The programme sequence for pre-selections on the main selection level has been improved.

Cleaning

When cleaning the brewer the water quantity has been optimised.

TECHNICAL INFORMATION
