

TECHNICAL INFORMATION

Date: 20.02.2023
TI: 0423
Machine type/s: Siamonie Smart

Siamonie Smart Software

The latest, improved Siamonie Smart Software SiLine software boasts new functions. Please take note of a few highlights.

Locking times

Setting the locking times has been simplified. The locking times are limited to 10 selections in the menu [Date/Times]. For each selection the various combinations are listed. For example for "Cappuccino-locking time" the selection of "Topping" or "Milk" or "Espresso" is listed.

Cashless systems

Communication with MDB-payment systems has been improved.

Installation assistant

Installing a Siamonie Smart without milk module has been optimised.

Price list notification

HMI price list notifications (touchscreen) have been increased. Card payments can also be selected for options such as Happy Hour.

Brewer

The brewer controller has been improved.

Download

The latest software can be found on our Homepage in the [Download-Center](#).
