HG

Material change for solenoid valve

The material used for the inlet valve on hot drinks machines has been changed.

SiGusto / CVS / CIS / SiVend HG

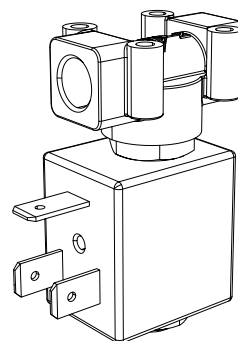

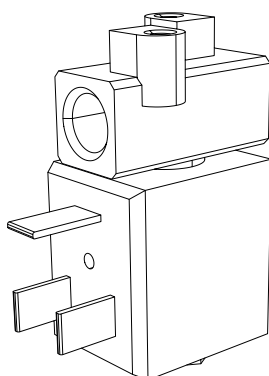

CIT

To continue to guarantee availability of this spare part the previous solenoid valve made from brass, part no. 402 00 954 01, has been replaced by a new plastic solenoid valve, part no. 414 00 948 00.

New:

Brass solenoid valve
402 00 954 01

Plastic solenoid valve
414 00 948 00

TECHNICAL INFORMATION

Machines supplied before Week 7 /2019 will require a special kit as the plastic solenoid valve is smaller.

Table top

Machine	Conversion kit	Required up to serial number
HG-CIT	414 51 948 00	90478815

This does not apply to the Siamonie range of machines.

Floor standing machines

Machine	Conversion kit	Required up to serial number
SiGusto / CVS / CIS / SiVend HG	414 50 948 00	90478815

Conversion kits

On account of the change of material, screws for plastics are required when fitting the solenoid valve. These screws are included in the kit. Screws for installing the solenoid valve must not be tightened with more than 1,2 Nm. The hose connections must not be tightened with more than 2,0 Nm.
