

TECHNICAL INFORMATION

28. May 2020

TI0720

Machine type/s:

SiGustoNX / SiVend HG 20 Trend / CVS 500 / CIS 500 / CVT / CIT

New software for hot drinks machines

The following changes apply to all hot drinks machines:

Price

Pricing is easier to understand. For a selection without credit the prices for cash and price line 1 is shown in the display.

Recipes

The mixer cups function "pre-rinse" has been modified. Under "rinse time per mixer" in the installation menu values from 1-10 seconds can be programmed.

SiGustoNX/ SiVend HG 20 Trend Espresso

The following changes apply only to the SiGustoNX and SiVend HG 20 Trend.

New recipes

The following new recipes are available:

Recipe	SiVend HG 20 Trend Espresso / SiGustoNX Espresso	SiGustoNX Instant	Comments
CAF4/-g	x		
CAF6/-g		x	
CAP5/-g	x	x	
CAP6/-g	x	x	
CAL2/-g	x		CAL2 and CAL3 are analogue recipes
CAL3/-g	x		CAL2 and CAL3 are analogue recipes
MEL2/-g	x	x	
MAC4/-g	x	x	
ESM2/-g	x	x	

TECHNICAL INFORMATION

Statistics

Statistics have been optimised on two card readers.

SiVend HG 20 Trend Espresso

The following changes apply only to the SiVend HG 20 Trend.

Illumination

The RGB-design lighting control has been modified.

Setting the RGB-design lighting has been simplified. To scroll through the 9 different colours just press "M" in service menu 165-M. The actual RGB-values can be seen on the display. Pressing "M" for the tenth time shows the programmed colours in rapid succession.

The RGB-design illumination is switched on and off in parallel to the standard illumination.

CVS 500 / CIS 500

The following changes only apply to CVS500 / CIS500

Cup dispense mechanism

Activating the cup splitter from Componenti has been modified.

If a lockable dispense area is installed and activated self recognition of the double cup dispense mechanism is no longer carried out, which eradicates possible irregularities during operation.

Pot function

Setting the display illumination has been optimised.
