Instant product containers with stirring wheel

Following some product optimisation work by one of our suppliers, we wish to provide some information concerning the disassembly and assembly of the instant product containers. The new product containers are to be installed as of the following dates:

Machine	Calendar week/year
HG15 TT	23/2022
Siamonie	22/2022
Free-standing machines	13/2022

To ensure fault-free operation following assembly, please heed the following:
 When fitting the stirring wheel with spring, make sure that it is positioned correctly.

A	Spring
B	Tooth
C	Gap
