

TECHNICAL INFORMATION

05. August 2021

TI0921

Machine type/s:

FS / SÜ / SN48 / GF 75 / GF 99 / GF XL / FK

Series software for snack and cold drinks vending machines

The features listed below apply to all types of machines:

Readings and statistics

EVA-DTS protocol support has been optimized.

Reading via DEX/UCS has been optimized. Data are correctly transferred at the time of the readout.

Reading out of EVA-DTS via Series 52 (RS232) has been optimized.

Cashless

Processing banknotes for crediting cashless payment funds has been improved.

The interaction of cashless with unspecified credit (GiroCard) and age verification has been improved.

Localization

Display texts have been improved. Especially the lift and installation menus have been optimized in French.

Special functions for FK

Statistics on the SiVend FK series have been improved.

Special functions for SÜ

Test vending on machines with a lift has been optimized.

Automatic motor test has been optimized.

Special functions for FS

Automatic motor test has been optimized.

TECHNICAL INFORMATION

FK up-to-date series software (from serial no. 90513978):

Machine	Control board	Software
FK	M32	FKMLj421.pat

FS / SÜ / SN up-to-date series software (from serial no. 90513956):

Machine	Control board	Software
FS / SÜ / SN/Softdrop	M32	FSMLj421.pat
FS /SÜ LM	M32	FSMLj421.lm

Robimat 75 / 99 up-to-date series software (from serial no. 90522110):

Machine	Control board	Software
Robimat 75 / 99	M32	FSMLj421.rob
Robimat 75 / 99 LM	M32	FSMLj421.rlm

Robimat XL / XM up-to-date series software (from serial no.: 90513877):

Machine	Control board	Software
Robimat XL / XM	M32	ROMLj421.pat

The software updates listed can be obtained free of charge from our Download Center (<https://www.sielaff.de/download-center/>).
