Machine type/s: Robimat X-Series

Alternative circuit breaker for Robimat X-Series

Due to the difficult procurement situation at the moment we are experiencing some shortages from our suppliers. In order to be able to continue to supply machines, an alternative circuit breaker is being fitted in the X-Series machines (XS / XM / XL). As the dimensioning of the connections for the alternative circuit breaker is different, we have also had to adapt the door contact switch cable.

Part number: 985 14 065 48

Part number: 985 14 065 27

For spare parts:

Up to serial number 90517951:
Current circuit breaker : 985 14 05 48

From serial number 90517951:
New circuit breaker: 985 14 065 27
