17. January 2020

TI0120

Machine type/s:

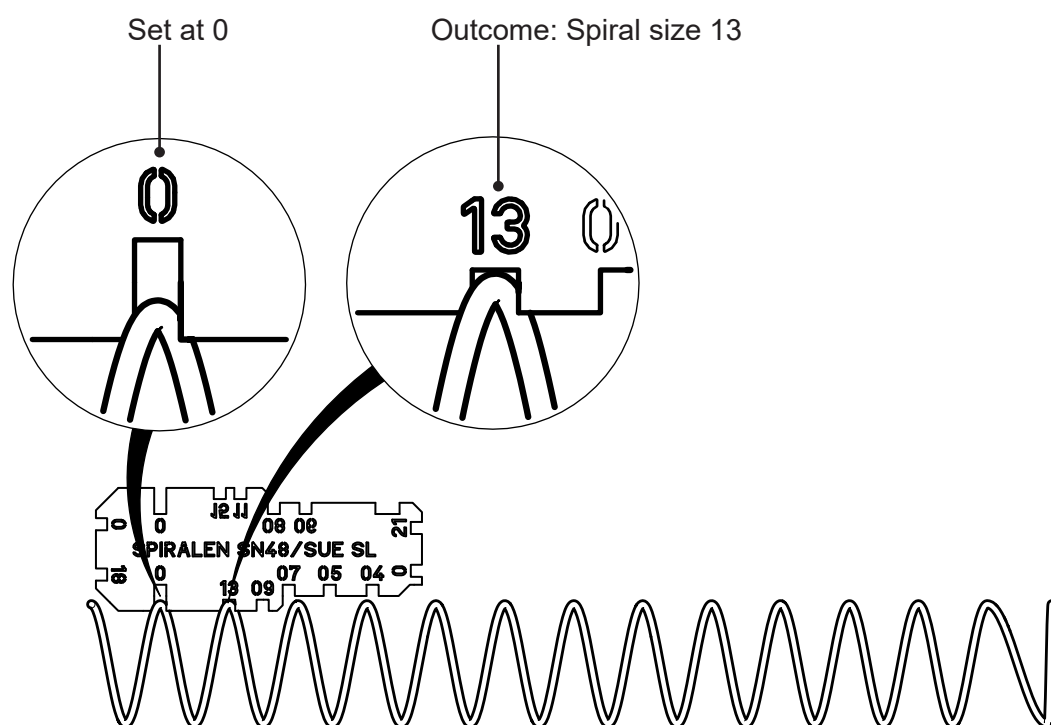

SiLine SÜ / SN48 / FS / SÜ

## Determining spiral sizes

For a perfect vend the correct spiral size is essential. In order to simplify determining which spiral size is required we have produced a gauge.

The gauge is available under part number:

|                  |               |
|------------------|---------------|
| FS/ SÜ           | 890 00 891 00 |
| SN48 / SiLine SÜ | 890 00 892 00 |
