Machine type(s): SiLine HG TS

Fixed cup catcher 70 mm for SiLine HG TS

From production week 39 2026, the fixed 70 mm cup catcher will be fitted in SiLine HG TS models when one or two 70 mm cup dispensers are ordered.
The 70 mm cup catcher is supplied as standard with chute constrictions on the left and right. These ensure that the cups are guided more precisely into the catching position and dispensed safely.

	
70 mm cup catcher Item No.: 419 00 364 00	Chute constriction Item No.: 419 00 234 00 (left) Item no.: 419 00 235 00 (right)

The retrofit kit with item number 4195036400 RS (fixed cup catcher, 70 mm) can be used to retrofit existing vending machines as required.

The kit is designed for two 70 mm cup dispensers and includes the cup catcher and the two chute reducers. The steps for installation are described in detail in the enclosed assembly instructions.

The parts can also be ordered individually as an option.
