SiLine Software 0.20.0

The new SiLine Software 0.20.0 comes with updated functions and new features. Here are just a few of the latest highlights.

Standardisation

All SiLine devices now come with a menu for adjusting the display lighting and with an energy-saving mode.

Test vends

Test vends have been simplified. They can now only be performed in Free vend mode.

Localisation

We have improved the display texts in the following languages.

- French
- Italian
- Romanian

The menu is also less susceptible to problems when the machine door is open.

SiLine HG

We have optimised the vending process. Processes inside the vending machine now run simultaneously to speed up the vending process.

External advertising lighting can be connected to output X12 on the power supply unit and switched on and off using time profiles. For reasons of safety, external advertising lighting is switched off when the vending machine door is opened.

We have optimised the initial commissioning procedure.

We have improved how error messages are processed. For instance, machines no longer report under-temperature errors during deliberate temperature reductions (e.g. when in standby).

New recipes have been added:

- ESCOi
- ESCOig
- ESCO2i
- ESCO2ig

The brewing chamber is rinsed if coffee is overdosed.

Test vend mode has been improved and expanded. Test vends of invalid recipes can also be carried out.

SiLine SÜ

The “Open dispenser” button can be permanently displayed in the customer menu.

The new error message EJM_2000 indicates that not all motors are in their end positions when the machine door is opened.

SiLine SÜ and SiLine GF

Light mode

Previously, the only display theme option was Dark mode (display with a dark background). This is now joined by an alternative Light mode.

Previous	New
Dark mode interface showing a dark background. The top section displays a 'DEAL' icon, a 'New Deal easyf' button, and a price of '0,10 €'. Below is a keypad with letters A-H and numbers 0-9. At the bottom, there is a wheelchair icon, a button labeled 'Ausgabe öffnen', and a status bar with the Sielaff logo, a German flag, and the text 'Kein Wechselgeld vorhanden' and 'Abbrechen'.	Light mode interface showing a light background. The top section displays a 'DEAL' icon, a 'Coca Cola + Snickers' button, and a price of '2,20 €'. Below is a keypad with letters A-H and numbers 0-9. At the bottom, there is a wheelchair icon, a button labeled 'Abbrechen', and a status bar with the Sielaff logo, a German flag, and the text 'Kein Wechselgeld vorhanden' and '3 °C'.
Dark mode	Light mode

When activated, Wheelchair mode condenses the selection keypad into the lower half of the screen so that the menu can be operated from a wheelchair. Please also check that the payment devices are suitably positioned.

Download
