SiLine Software 0.20.2

The new SiLine Software 0.20.2 comes with updated functions and new features. Here are just a few of the latest highlights.

Localisation

We have expanded and improved the display texts in the following languages:

- Polish

We have improved internal processes. For instance, sales enquiries (e.g. from higher-level systems) are only approved after the previous sale has been completed.

We have improved age verification methods (protection of minors).

SiLine HG

We have optimised how customisable product names are processed.
