SiLine Software 0.21.5

The new SiLine Software 0.21.5 comes with updated functions and new features. Here are just a few of the latest highlights.

The multimedia menu and the saving process have been optimised to avoid difficulties with image transfers.

SiLine SÜ

We have improved the handling of irregularities that occur during initialisation.

The configuration range for the elective offset has been extended to enable configuration of an offset in a larger range.

SiLine HG

We have improved the internal processes of the vending machine.

Pop-ups with language and allergen information for the 27" version have been optimised.
